

Latex Balloon Helium Chart

All 9", 11", and 16" Pearl and Metallic balloons are produced on super-sized forms; while the uninflated balloons look larger than other balloons of the same size, they are designed to inflate to the same size as Standard, Jewel, and Fashion Colors.

NOTE: The listed average inflation sizes, lift ability, flying times, and numbers of balloons per helium tank are conservative averages. Actual flying times vary depending on temperature and atmospheric conditions.
